The above extract is taken from the last number of the St Clausville (Ohio) Gazette, which, was handed to us this morning by a young lady, an operative in the Merrianack Mills, with a request with which we cheerfully comply. So far from wages having been reduced by the Corporations in this city since the revival oftisde, they have in many instances been raised. We are informed that notice has been given to the me chanics at work in the machine shop on the Merrimack Corporation, that their wages are ibout to be increased. ### Connecticut Election.

The grand result of the recent election in Connecticut, is brilliant for the Whigs. There is a complete and thorough change in the administration in that State. The nett whig gain is between three and four thousand. There is a majority in both branches of the Legislature, which secures

> A WHIG GOVERNOR, LIEUTENANT GOVERNOR, SECRETARY, TREASURER, COMPTROLLER,

AND ONE (IF NOT TWO) U.S. SENATORS. Well done, Connecticut! The beauty of it is

that the whigs carried on the contest on the atraight out Whig doctrine, of Protection to Home Labor.

The Boston Daily Evening Transcript, a gem of a paper, has recently made its appearance in a new dress as neat and tidy as one could wish to see. This is, as all know, one of the most popular daily papers issued in Boston, and is a great favorite, maintaining its dignity, wit and spirit, through all the mutations of time. In years gone by, when a novice in editorial life, we always visited with pleasure and received encouragement from the late Lynde M. Walter, Esq., for many years editor of the Transcript; and we never visit Boston without having a desire to visit the sanctum of the Transcript, but we understand there is a woman there, and we darsn't!

The Legislature of Rhode Island, at a special session have adopted a Protest on the subject of the recent interference in its affaias by the House of Representatives. The Protest is preceded by a solemn declaration setting forth Boston, on Thursday evening last. He has apthe proceedings of the Rhode Island people in 1776, 1778 and 1790, in regard to their adoption of the federal Constitution, and the consequent obligation of the federal Government to protect them against invasion and domestic violence; and setting forth, also, briefly, the facts of the Dorrite insurrection, and the transmission by the twenty-six of the memorial to Congress.

A large public meeting was held at Cincinnatti on 28th ult., to consider the question of the annexation of Texas. The subject was discussed at length by several fgentlemen, and resolutions hostile to annexation adopted. A committee was also appointed to address letters of enquiry to the candidates for Presidency, as to their views on the subject.

TP Senator Woodbury, in a late speech against the Tariff, quoted approvingly the remark, that the higher wages workmen receive makes them neither happier nor richer, since they only BRINK MORE and WORK LESS! The workmen in Connecticut have repudiated that contrine at the ballot box.

Recent Valuable American Invention. One of the most elegant coverings for beds is

the fabric which bears the name of Marseilles quilt. It is woven in the hand looms of Europe, and as that mode of manufacture is slow and requires an experienced workman to each loom,

An ingenious artisan in Massachusetts has invented, we are told, a method of making Marseilles quilts with as much facility as the common brown sheeting which costs nine cents a yard. A power loom driven by steam, involves the beautiful tissues finished with great regularity and symetry, the raised figures on its surface exhibiting almost every imaginable variety of Those who have subscribed for stock in pattern. A little girl, or any experienced person may tend several looms at once. The price of the fabric can exceed that of common brown sheeting only in the cost of the material, inasmuch as the labor of producing it is no greater.

Ingrain carpets, which form the principal covering of our floors, are also woven in Europe by hand looms, and the expense of employing the necessary workmen has hindered the extensive introduction of the manufacture into this country. The person to whom we have already alluded, has invented a power loom for weaving ingrain carpets with the same rapidity that the looms of our factories turn out the plainest and coarsest fabrics. A certain rich rapitalist at the eastward, has extended, we are told, eighty thousand dollars in assisting the inventor in his various experiments to bring it to pertection, little girl stands at the machinery and tends four or five looms, which jerk out the finished fabric with incredible rapidity. As the principal expense of making this kind of carpeting has hitherto been the cost of the labor, the price will be greatly reduced by this invention. Its author has been offered, we have been assured, eighty thousand pounds for the patent right in presented against any change of the present England, but this, his obligations to the capitafist who has furnished him with the means of bringing it to perfection, forbid him to accept.—

LORRAINE'S PILLS. OR VEGETABLE UNIVERSAL MEDICINE CURATIVE

French College of Health, in Paris. THE following letter was received yesterday by mail from Salem. It gives another evidence the great success of Lorraine's Vegetable Univer

Six-I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at lust seated on the vitals, and exhibited all the threatening symptoms of consumption. The general mutility of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon re. stored to a perfect state of health.

The following letter from J. B. Light, Esq. is wor

thy of notice. SIR-It ook one of Lorraine's Vegetable Pilislast evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came car which had great charms, and I enjoy ed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.

J. B. LIGHT. Yours truly, Nov. 20th, 1841.

[From Boston Daily Mail.]

Somehody wisely says, that a cap loaded with ewels and flowers will not cure the headache, nor gold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

THE CONDITION.

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations. Lorrame's Pills admirably effect this, because they cleanse the bosrels and purify the blood. The human body is always healthy when the

bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels. The extraordinary virtues of Lorraine's Pil s de-

pends upon extracts of over 50 different vegetables, all so admirably combined as to purify, nourish and invigorate the human system.

CONSUMPTION.—The following remarks were ta ken from the last number of the Medical Magazine: "The surprising effect produced by the genuine Dr. Taylor's Balsam of Liverwort, made at 375 Bowery, in consumptive cases, cannot fail exciting a deep and thrilling interest throughout the world. We have so long considered this disease (consumn tion) incurable, that it is difficult to credit our senses when we see persons, evidently consumptive, restored to health. Yet it is a fact of daily occurrence.

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the inrention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

A great number of these Wheels are now in operation and give in all cases engire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drum mond, James B. Fiske, Amos Davis and Leonard March, Esqrs., Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co. Bangor; Hon. J. S. Little, Portland; flon. TAY'S LINIMENT is known now to thought sands, as a most extraordinary remedy for these afflictions. WRIGHT'S Indian Vegetable Pills.

The True Character of Counterfeiters and Sellers of Counterfeit Medicines. O Medicine has been introduced to the American Public, whose virtues have been its vast popularity, and extensive circulation, the WRIGHT'S INDIAN VEGETABLE.

PILLS will be ready to add the testimonials of their re shamelessly and repeatedly counterleited. Igno rant, envious, avaricious, and unprincipled long have in different places, manufactured a speriou pili, bearing a superficial resemblance to the inarticle, but composed either of impotent or delete rious ingredienter which they have sought to four upon the public as the veritable Indian Vegetable Pills. These fraudulent Swindlers could never puted

their vile wares upon the public but for the congr vance and assistance of self-styled respectable Druggists, who, for the sake of a little "filth lucre," lend themselves to the monstrous and to hallowed system of imposition. The counterfeite of a popular medicine is more criminal than a coun inflicted upon society by the former. We might paint him wringing the mite from the hard has of invalid penury which is extended for the boon health, and receives instead the vile drug that pre tracts and aggravates disease, or to view it in best aspect, suffers it to rage unchecked, ile inelancholy is the reflection that thousands has have been hurried to the grave by having a conterfeit substituted for the true Medicine: who is for the venal traud might now be hing in high health, the delight and kope of the social circle. All classes are interested in putting down the vile Counterfeiters.

Let-the Stores where they are so be marked and Shunned.
